

IM3180 Design and Innovation Project (AY2025/26 Semester 1)

Individual Report

Name: Choong Zixuan

Group: 8

Project Title: DeciWise Individual Report

Contributions to the Project and Report (1-2 pages)

Project

Designed and implemented the User Interface for Deciwise, including admin dashboard page, case studies page, trainees' record page, trainer team page and settings page.

Report (indicate pages and appendixes written by you for the Group Report)

Page 6: Objective

Objective

The main objective is to design and develop an **AI-powered scenario simulator** for trainers to train trainees that:

- Develops practical decision-making where trainees are required to make active decisions based on different scenarios designed by the trainer. We aim to assist the training process in critical thinking and problem-solving skills.
- Integrates AI generation to automate and accelerate content creation in scenario flowchart, image generation for each scene and scenario playthrough.
- Generates analytic reports of trainees' statistics (decision tree, time taken per options, etc) for trainers to identify their specific weak points and assign targeted follow-up scenarios, creating a personalized development plan.

Compared with traditional workshops and training processes. Deciwise significantly reduces training costs and logistics needed as it is designed to be AI-powered and convenient for trainers to design scenario-based cases for target trainees.

Other Deliverables like Project Charter (indicate pages and appendixes), Poster, Presentation Slides (indicate slide numbers) and Video, if applicable

Designed the content, flow and storyboard of the presentation video.

Creation and modification of presentation video.

Reflection on Learning Outcome Attainment

Reflect on your experience during your project and the achievements you have relating to at least two of the points below:

- (a) Engineering knowledge
- (b) Problem Analysis
- (c) Investigation
- (d) Design/development of Solutions
- (e) Modern Tool Usage
- (f) The Engineer and the World
- (g) Ethics
- (h) Individual and Collaborative Team Work
- (i) Communication
- (j) Project Management and Finance
- (k) Lifelong Learning

Point 1: Engineering knowledge

After finishing this project, I've gained significant exposure to coding as I wasn't very familiar with coding, especially implementing a brand-new software prototype. From using Figma for UI designing and using React to code out the actual framework of the software, including the design and structure of each page. Furthermore, I also learnt how to connect from frontend to backend database using MongoDB. These are all new valuable experiences to me and will definitely help me in the future to work as project manager/software engineer.

Point 2: Individual and Collaborative Teamwork

Throughout the entire project, my team has been very well-organized and disciplined in terms of communication and task allocation. Everyone had very clear target and collaborated very well and finished every task given on time. We used Atlassian Jira and Gantt chart for tracking project schedule and status which worked out perfectly. Aside from weekly DIP meeting, we had extra meetings to summarize and keep everyone's progress updated. For myself, I did every of my work on time, including frontend designing and implementation, storyboarding and also each draft of the presentation video.

Acknowledging/Declaring the Use of GAI

Please refer to NTU's Current Policy & Guidelines on the Use of Generative AI available in NTUlearn home page and the link:

[https://entuedu.sharepoint.com/sites/Student/dept/ctlp/SitePages/Exploring-the-Impact-of-Generative-Artificial-Intelligence-\(GAI\)-Tools-on-Education.aspx](https://entuedu.sharepoint.com/sites/Student/dept/ctlp/SitePages/Exploring-the-Impact-of-Generative-Artificial-Intelligence-(GAI)-Tools-on-Education.aspx)

- Complete the following declaration if applicable.
- Create a Paper Trail to document the input prompt, output obtained, and how you have used it

I Choong Zixuan, zchoong002@e.ntu.edu.sg honestly and sincerely make the following declaration in relation to the following course submission:

1. Name of course: Design & Innovation Project
2. Course Code: IM3180
3. Instructor: Prof Andy Khong
4. Title of Assignment/Project Submission: DeciWise Individual Report

In relation to the foregoing I hereby declare that, fully and properly in accordance with the Assignment/Project Instructions I have (check where appropriate):

- i. Used GAI as permitted to assist in generating key ideas only. ☐
- ii. Used GAI as permitted to assist in generating a first text only. ☐
- And/or
- iii. Used GAI to refine syntax and grammar for correct language submission only. ☐
- Or
- iv. As it is not permitted: Not used GAI assistance in any way in the development or generation of this assignment or project. ☒

I also declare that I have :

- a. Fully and honestly submitted the digital paper trail required under the assignment/project instructions; and that
- b. Wherever GAI assistance has been employed in the submission in word or paraphrase or inclusion of a significant idea or fact suggested by the GAI assistant, I have acknowledged this by a footnote; and that,
- c. Apart from the foregoing notices, the submission is wholly my own work.
